STYLE LOOKBOOK

Garage door manufacturer & specialists.

Designed for Australian homes — professionally supplied and installed across Melbourne and Victoria.

Four styles. One perfect match for your home.

Choose the door that brings your architectural vision to life — from insulated sectional panels and refined glazing to seamless slats.

Insulated Sectional Garage Door

■ Improved Thermal Efficiency

Helps reduce heat transfer and maintain a more stable temperature inside the garage.

■ Strong and Durable Construction

The multi-layer panel structure provides excellent rigidity and long-lasting performance.

■ Noise Reduction

Reduces up to 75% of noise, creating a quieter and more comfortable garage environment.

■ Finger-Safe Panel Profile

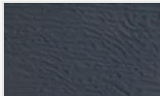

Interlocking panel joints help reduce pinch points during door operation.

CUSTOM DOORS

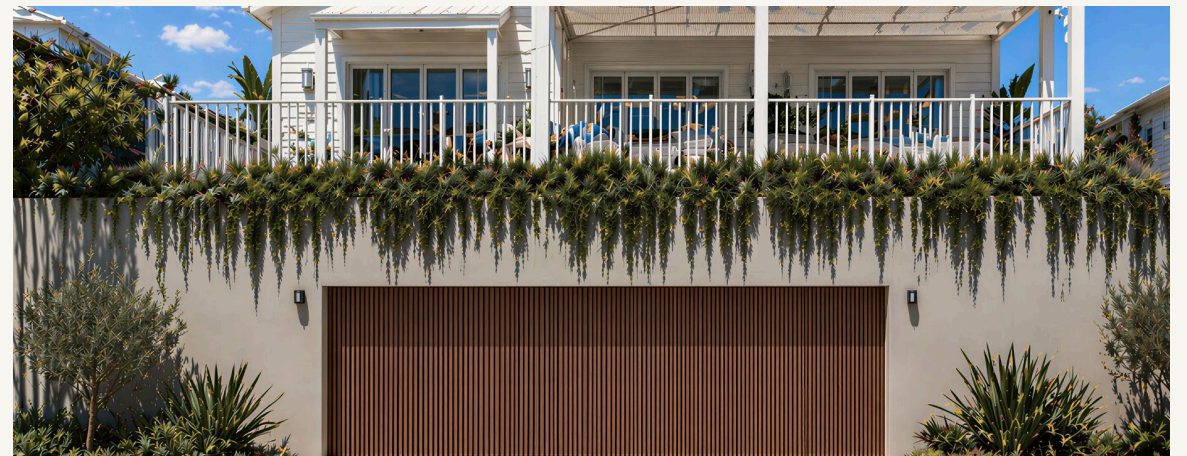

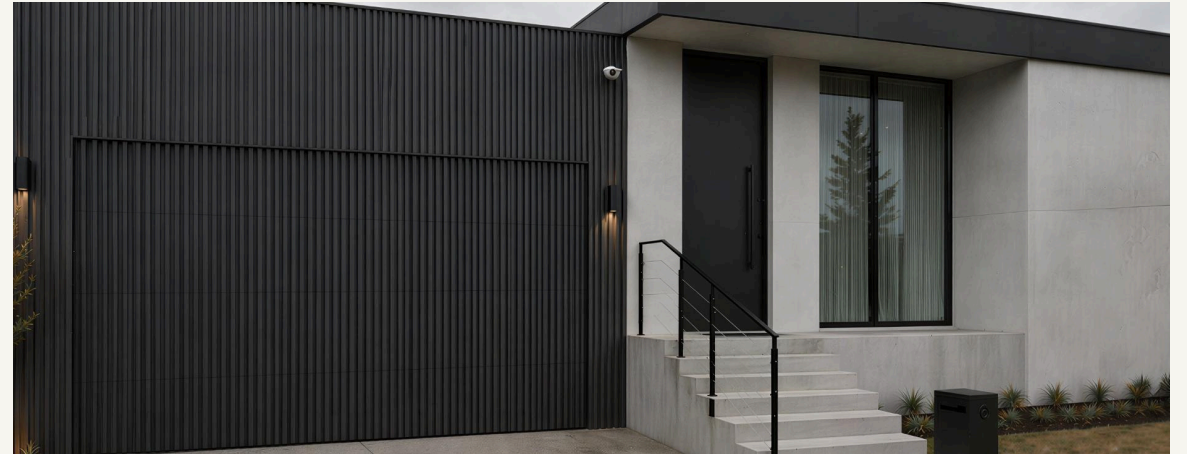

Custom slatted doors.

A garage door designed to disappear into the facade. Vertical aluminium slats form a clean, continuous architectural surface — select the profile, spacing, and finish to complement surrounding cladding, screens, and entry details. Custom profile · Powder coat · Timber look.

PROJECT GALLERY

The facade stays continuous.

Black and timber-look finishes allow the door to align with a wide range of contemporary materials.

Frameless Glass Doors.

A minimal exterior with a deep reflective surface.

01 Clean elevation

Reduced visual framing keeps the facade calm and contemporary.

02 Reflective glazing

A strong architectural finish that shifts with light and landscape.

FRAMED GLASS

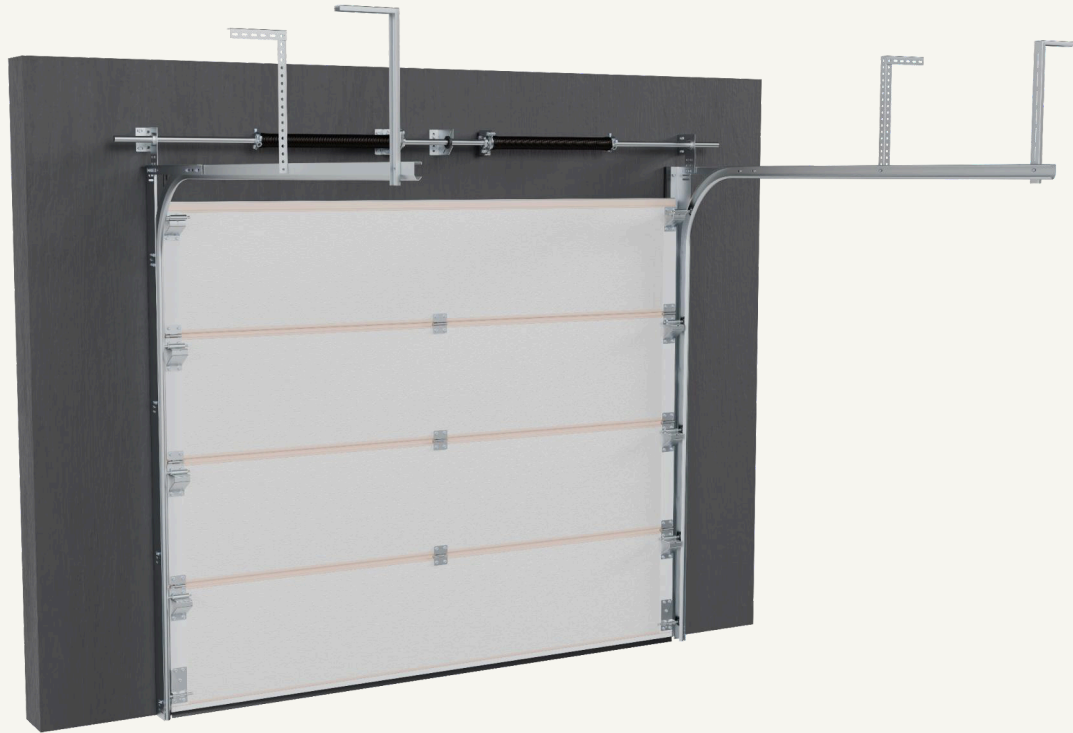

A stronger grid for a more graphic facade.

Visible rails and stiles create structure, rhythm and a confident industrial edge.

INSIDE THE SYSTEM

Engineered movement behind a clean exterior.

The door, track and spring system work together to support balanced, reliable sectional operation.

01

Torsion spring balance

Supports controlled movement through the opening cycle.

02

Guided track system

Configured to suit available headroom and internal space.

03

Finger-safe panels

Profile design helps reduce pinch points between sections.

04

Durable hardware

Quality hinges, brackets and fixings.

Let the door complete the architecture.

Design consultation · Supply · Installation. Get in touch with our Melbourne team to start your project.
