

Smart Switch

One touch. Every room. Premium glass touch panels — SAA-certified, Matter over Thread, compatible with Apple Home, Google Home, and Alexa — without any hub.

■ SAA certified ■ Matter over Thread ■ KNX compatible

THE RANGE

One design. Every room.

Available in 1, 2, 4, 6, and 8-gang options — choose the right configuration for each room. All five sizes share the same panel face design, so every switch in your home looks cohesive.

Approved to Australian electrical standards

Precision in every detail

01
Slim 8mm Profile

The angled view shows the slim 8mm depth and precision bevelled edge.

02
Built-In Light Sensor

The sensor view reveals the capacitive touch mesh — presence detection and ambient light sensing built directly into the panel face.

03
KNX Bus Terminal

The rear shows the KNX bus terminal and SAA/Matter certifications.

KEY FEATURES

A design statement and a control point.

01

StellarTrack Design

Available in glass, brushed metal, walnut, and more — with over eleven KNX finish options including brushed brass, leather, and spa grey. Each panel is a design statement as much as a control point.

02

KNX Certified

Built on KNX, the globally recognised gold standard for home automation. Interoperable with ABB, Gira, Legrand, Schneider, Siemens, and more.

03

Scene Control

One tap sets the whole room. Movie Night dims the lights, closes the curtains, and fires up the screen — automatically. Party, Morning, Away: your home knows what you need.

04

Universal Compatibility

Supports KNX, Matter, Thread, Wi-Fi, Zigbee, Z-Wave, and Bluetooth. Works with Apple HomeKit, Google Home, Amazon Alexa, Samsung SmartThings, Crestron, and Control4.

05

Voice & App Control

Control your entire home with a word — Siri, Google Home, and Amazon Alexa are all supported. Or manage everything from the Hommii app, from anywhere.

06

Sensor Automation

Lights adjust automatically based on occupancy, ambient brightness, and time of day. When you enter a room, your home is already ready.

UNIVERSAL CONTROL

One panel. Your whole home.

Lighting

Dimmers, scenes, and presence-triggered lighting across every room

Climate

HVAC, underfloor heating, and ventilation — all in one place

Curtains & Blinds

Automate your motorised curtains, blinds, and shutters

Entertainment

AV receivers, projectors, and screens on a single Movie Night scene

Security

Access control, cameras, and alarm panels via KNX integration

CHOOSE YOUR SYSTEM

Which solution suits your home?

WIRED SYSTEM

KNX

Best for new builds and major renovations

- ✓ ISO/IEC 14543-3 international standard — used in airports, hospitals, and luxury hotels worldwide
- ✓ One wired bus controls lighting, blinds, HVAC, and AV across the whole home
- ✓ Compatible with ABB, Gira, Legrand, Siemens, Crestron, and Control4
- ✓ Bus-powered — no Wi-Fi or cloud required, ever

WIRELESS SYSTEM

Matter over Thread

Best for existing homes and retrofits

- ✓ No new wiring — installs into standard Australian wall boxes
- ✓ Works natively with Apple Home, Google Home, Alexa, and Samsung SmartThings
- ✓ Self-healing Thread mesh — local control even when the internet is down
- ✓ No hub, no lock-in, no proprietary app required

UNIVERSAL COMPATIBILITY

Supports every major platform.

No proprietary hub and no lock-in — Hommii Smart Switches work with the systems, assistants, and brands you already use.
